

At a moment like this, do you really want a non-clinician in the room?

Elite's Virtual Scribes leave you alone with your patients instead of get between you.

It's Easy... With Elite Office Solutions' Virtual Scribe services, you don't have to hire another office staff member, and you don't need a third-party recording your patient interactions. We work the way most clinicians are comfortable working: you record your notes, and our virtual scribes convert the audio into useable text. Best of all, **our virtual scribes populate your EMR system automatically.**

Update Your EMR Faster – Clinicians have found out all too quickly that hunting-and-pecking their own notes into an EMR can add hours of administration time to their day, and takes their focus away from their patients. With our virtual scribes, you can keep your attention on the person sitting right in front of you.

TIRED OF LOSING TIME UPDATING EMRs?

Clinicians can lose over an hour of billable time *every day* managing their own EMRs. Isn't that why you hire support staff in the first place? Elite Office Solutions' virtual scribes take that workload off your plate so that you can focus on what really counts: your patients.

Not only will you reduce the time and hassle of updating EMRs, you'll have more billable time available in your day, increasing revenues.

THE ELITE DIFFERENCE

Since 1986, we have built a reputation as one of the industry leaders with fast turnaround and unmatched client service. We believe in one-on-one relationships, customizing solutions that adapt to your workflow, not vice-versa. Elite provides virtual scribe and related office support services for all medical specialties.

Our job is to make your job easier.

TALK FREELY W/ PATIENTS

Patients can be uncomfortable enough talking with their physician, never mind with a non-medical person present.

LESS ADMIN WORK

Our virtual scribes take your recorded notes and convert them into useable text. No more hunting and pecking!

MEDICAL SCRIBES

All of our virtual scribes are professionally trained medical language specialists, and are all based in the U.S., not overseas.

YOUR EMRs ARE AUTO-UPDATED

Elite automates the whole process, saving you even more time on the backend. You talk, we type, it updates. Done!

ELITE'S VIRTUAL SCRIBES HELP YOU WORK BETTER

- No more updating your own EMRs
- No extra staff – and associated costs – needed
- Professionally trained medical scribes
- 100% U.S.-based staff where our laws apply
- Fully HIPAA-compliant services
- Years of experience, established in 1986
